

Tyrion Meredith

Web developer and designer. I care about how things look and how they feel to use.

South Wales, open to remote work

About

I taught myself to build for the web and I haven't really stopped. Since March 2025 I've made over 1,500 commits across more than 20 projects. I do the whole job myself: the design, the database, and putting the app live on my own server. I've fitted this around work and a BSc in Computing and IT with the Open University, where I got a distinction in every Stage 1 module.

I use AI coding tools like Claude Code every day, and I write automated tests so I can trust what I ship. I've also spent four years in admin and customer service jobs, which is where I learned to explain things without jargon and keep calm on busy days. I'm looking for a remote role, either full-time or freelance.

Skills

Front end	HTML, CSS, JavaScript, TypeScript, React, Astro, Next.js, Tailwind CSS
Design	UI design, responsive layouts, typography, colour, Motion and GSAP, Figma
Back end	Node.js, Express, Bun, tRPC, PostgreSQL, SQLite, Drizzle ORM, REST APIs
Tools	Git and GitHub, Docker, self-hosting with Coolify, Vitest, Claude Code
Office and admin	Word, Excel, Outlook, booking systems, data entry, data protection

Projects

Popcorn Film and TV diary with a social side popcorn.tyrion.uk

I love films and wanted somewhere to log them that was actually fun to use, so I built it. You can track films and TV episodes, keep watchlists, follow friends and get recommendations based on your taste, and the whole thing is styled like a retro drive-in. I designed and built it on my own, across 525 commits. It runs on a 21-table PostgreSQL database and scores 100 for accessibility and SEO on Google Lighthouse.

Built with React, TypeScript, TanStack Start, tRPC, PostgreSQL, Drizzle ORM, Tailwind CSS and Docker

Fossil Finder Interactive 3D globe fossil-finder.tyrion.uk

I've always been into dinosaurs, but fossil databases aren't built for curious people to browse. This puts millions of records from the Paleobiology Database on a 3D globe you can spin, with a timeline covering 541 million years and Wikipedia summaries for each find.

Built with React, JavaScript, Vite, Mapbox GL and Docker

Strum Guitar learning app [Demo video at tyrion.uk](#)

When you learn guitar from videos, it's hard to tell if you're doing it right. Strum has a fretboard you can play on screen with real sound, rhythm exercises, and star-scored practice sessions that go alongside a popular online course.

Built with React, TypeScript, TanStack Start, tRPC, PostgreSQL, Drizzle ORM, Tone.js and Tailwind CSS

Tic-Tac-Toe: Totally Fair Edition Browser game tyrion.uk/game.html

"Beat me and you don't have to hire me. (You won't beat me.)" The computer cheats more as you play: a cartoon pencil rubs out your moves, the board gets flipped, and if you manage a draw it adds another row. I wrote it as a single HTML file with no dependencies.

Built with HTML, CSS, JavaScript and SVG

Experience	Medical Administrator	War Memorial Health Centre, Crickhowell	Jul 2026 to now
	– Book and manage patient appointments at a busy GP practice. – I'm the first person patients speak to, whether they phone or come to the front desk. – Handle the day-to-day admin and spreadsheets, and work closely with doctors, nurses and the admin team.		
	Learning Support Assistant	Aspris	Aug 2024 to Jun 2026
	– Supported an autistic young person one to one through Level 1 and Level 2 IT courses at college, explaining technical topics in a way that worked for them. – Kept accurate records and handled confidential information in line with safeguarding and data protection rules. – Worked closely with college staff, families and other professionals.		
	VIP Showroom Host	Trade Centre Wales, Abercynon	Nov 2023 to Feb 2024
Education	Greeted VIP customers, checked their appointments and answered questions, and worked with the sales and admin teams.		
	Games Master	Escape Reality, Cardiff	Jan 2023 to Nov 2023
	– Ran bookings through an online reservation system, phone and email, and took payments. – Hosted games for groups, gave hints along the way, and dealt with complaints, passing them to a manager when needed.		
	Salon Assistant	Pets at Home Grooming Salon	Mar 2022 to Dec 2022
	Booked appointments, carried out pet health checks, and handled payments and customer queries.		
	BSc (Hons) Computing and IT	The Open University	2025 to now
	Distinction in all four Stage 1 modules.		
	Level 2 Teaching Assistant		2024
Certificates	Including safeguarding and supporting additional needs.		
	GCSEs		
	Including English.		
	Web Development	SoloLearn	2026
	Agentic Workflows	SoloLearn	2026
